Work

Freelance

2020 - now

Frontend, Backend, Admin, Designer, Tech Support

Made some different projects: a video streaming room (like Skype), some landing pages, some social networks. I've used Angular2+, now I'm using SCSS, Vue stack (Vue 3, Nuxt 3, Pinia), Node.js + Express/Fastify, PostgreSQL/Firebase, other libraries & techs.

UkrHMI

Feb 2023 - now

Frontend, Designer

Full name - Ukrainian Hydrometeorological Institute. I am developing new institute's web site and a project 'Agricultural Database of Ukraine' - interactive web map. I am using here Vue stack (Vue 3, Nuxt 3, Pinia), SCSS, Maptiler, other libraries.

Maison Commerce

Oct 2022 - Dec 2022

Frontend, Designer

This is a small company from the Netherlands with a lot of projects (mostly e-commerce). Mostly used Shopify, Tailwind, SCSS, other libraries. Quit due to constant rozzian missile & drone attacks on energy infrastructure of Ukraine => had no electricity to perform work in needed amount of tasks.

CherryPie

Jan 2020 - April 2020

Frontend

Made a web version of social network. Used Angular2+, Node.js + Express, SCSS, JS/TS, some other libraries. Quit due to COVID spread and some educational troubles.

YourAirTest

Nov 2019 - Dec 2019

Frontend & Designer

A project (based on the Noosphere tech school) to create interactive web-maps about air pollution. Used Angular2+, SCSS. Quit due to less interest in topic & changing of focus to educating myself.

Languages

WheelKeep

Feb 2019 - Sept 2019

Frontend / Mobile / Marketologist

A startup (based on the Noosphere tech school) to create locking and tracking system for bikes. Used HTML/CSS/JS/Firebase. Also made design, mobile app prototype and wrote a marketology strategy. Quit after all my work has been done.

Education

University (DNU)

2018 - 2023

Bachelor of Software Engineering, Master of Applied Math: Computed Modelling (in progress). It's an average university, where I was able to work with a lot of talented people, who helped me to learn more.

High school (LIT)

2016 - 2018

Good lyceum with Math/English/IT specialization. Gave me more real knowledge than usual school.

Cources (ITStep)

2014 - 2016

Not bad extra school (cources) to 'enter IT'.

Hogwarts

- Always

Only in a dream :(
